

## **Personal, social and emotional development Spring 2 Reception**

This term the children have been learning to manage their feelings appropriately. The topic stemmed from their interest of soft toys, as well as the need to discuss managing our feelings in a way which engages the children.

To help us, the children brought a special toy from home to discuss a suitable way to handle situations when toys are unkind. We used our critical thinking part of our thinking process to resolve the toys conflicts. This was then reflected in our own behaviour.
